

MidCric (previously BevCric)

MidCric is cricket for the Grade RR (U5), Grade R (U6), and Grade 1 (U7) players of the school. It is played with cricket equipment, and each player gets the opportunity to bat, bowl and field. The size of the fields varies from age group to age group. The emphasis at MidCric is on developing the players' skills and cultivating a love of cricket from a very early age.

The practices are managed by CBC cricket under the leadership of Nico Martin. During these sessions, the players are coached as a team, but individual skills such as fielding, batting and bowling are also concentrated on. It is therefore very important that these practices must be attended faithfully, as a team cannot practice if all the players are not present.
